4 PENEGASAN RAGAM JURNAL (NASIONAL, NASIONAL TERAKREDITASI, INTERNASIONAL, INTERNASIONAL BEREPUTASI)

Jurnal Ilmiah Nasional adalah majalah ilmiah yang memenuhi kriteria sebagai berikut:

- a. Karya ilmiah ditulis dengan memenuhi kaidah ilmiah dan etika akademik.
- b. Memiliki ISSN.
- c. Memiliki terbitan versi online.
- d. Bertujuan menampung/mengkomunikasikan hasil-hasil penelitian ilmiah dan atau konsep ilmiah dalam disiplin ilmu tertentu.
- e. Ditujukan kepada masyarakat ilmiah/peneliti yang mempunyai disiplin-disiplin keilmuan yang relevan.
- f. Diterbitkan oleh Penerbit/ Badan Ilmiah/ Organisasi Profesi/ Organisasi Keilmuan/ Perguruan Tinggi dengan unit-unitnya.
- g. Bahasa yang digunakan adalah Bahasa Indonesia dan atau Bahasa Inggris dengan abstrak dalam Bahasa Indonesia dan atau Bahasa Inggris.
- h. Memuat karya ilmiah dari penulis yang berasal dari minimal 2 (dua) institusi yang berbeda.
- i. Mempunyai dewan redaksi/editor yang terdiri dari para ahli dalam bidangnya dan berasal dari minimal 2 (dua) institusi yang berbeda.
- j. Angka kredit setiap karya ilmiah maksimal 10 (sepuluh).

4 PENEGASAN RAGAM JURNAL (NASIONAL, NASIONAL TERAKREDITASI, INTERNASIONAL, INTERNASIONAL BEREPUTASI)

12. Jurnal Ilmiah Internasional yang berkualitas harus memenuhi kriteria sebagai berikut:

- a. Karya ilmiah yang diterbitkan ditulis dengan memenuhi kaidah ilmiah dan etika akademik.
- b. Memiliki ISSN.
- c. Ditulis dengan menggunakan bahasa resmi PBB (Arab, Inggris, Perancis, Rusia, Spanyol dan Tiongkok).
- d. Memiliki terbitan versi online.
- e. Dewan Redaksi (*Editorial Board*) adalah pakar di bidangnya paling sedikit berasal dari 4 (empat) negara.
- f. Artikel ilmiah yang diterbitkan dalam 1 (satu) nomor terbitan paling sedikit penulisnya berasal dari 2 (dua) negara.
- g. Alamat jurnal dapat ditelusuri daring.
- h. Editor Boards dari Jurnal dapat ditelusuri daring dan tidak ada perbedaan antara editor yang tercantum di edisi cetak dan edisi daring.
- i. Proses review dilakukan dengan baik dan benar.
- j. Jumlah artikel setiap penerbitan adalah wajar dan format tampilan setiap terbitan tidak berubah ubah.
- k. Tidak pernah diketemukan sebagai jurnal yang tidak bereputasi atau jurnal meragukan oleh Ditjen Dikti/ Ditjen Sumber Daya dan Iptek atau tidak terdapat pada daftar jurnal/penerbit kategori yang diragukan.

Discover Hidden Corporate Intelligence Needs by Looking at Environmental and Organizational Contingencies

Alessandro Comai
Ph.D. Candidate, ESADE – University Ramon Llull, alessandro.comai@esade.edu

Abstract

The purpose of this paper is to put forward a research framework capable of detecting the hidden needs of a firm in terms of type of formal competitive intelligence program (CIP). The model will focus on the internal and external determinants which compel an organization to establish a formalized intelligence process. This study is concerned with measuring the competitive intelligence sensitivity of a particular organization in a particular context. The first part introduces two different approaches to the examination of the corporate and decision maker's needs which are generally used in the competitive intelligence field. Subsequently, it discusses the decision maker's role and the potential failure to determine the CI needs as well as the potential value of the CI program. The second part focuses on research questions. The third part discusses which types of external and internal factors prompt a firm to establish a formal CIP. The paper concentrates on putting forward the factors which are assumed to have the most significant analytical influence and through which it is possible to pinpoint which organizations need to establish a CIP as well as the type of process required.

Keywords

competitive intelligence, intelligence needs, environmental scanning, managerial blind spots, contingency factors.

Introduction

It is generally agreed that firms require selected information, called intelligence, for the strategic decision-making process and there are several differences in the way in which different companies use their information. Firms differ in the system they use for acquiring appropriate intelligence and in the degree of resources they devote to it. An increase in external uncertainties may be related to complexity and in order to cope with environmental changes, firms have strategic planning tools and information to help them formulate adequate policies. However, how do they know whether a firm is sufficiently equipped to sustain environmental information intensity without experiencing a competitive crisis? The objective of the paper is to identify a set of external and internal contingency factors which allow decision makers to know when they need a CI program and what type of focuses should be incorporated into it.

Understanding intelligence needs

Decision maker's needs have long been studied in the information science and intelligence field (see for example Nicholas, 2000; Herring, 1996). Intelligence needs differ from

CALL FOR PAPERS

The 1st International Conference and 19th National Conference on Economics of Education and Tourism
 "Economics of Education and Tourism: Towards a Global and Local Collaborations"

Grand Men Seng Hotel, Davao City, Philippines
 November 19 - 21, 2015

The Council of Economics Educators (CECON) is pleased to announce its 1st International Conference and 19th National Conference on 19-21 November 2015 in Davao City, Philippines. This event is expected to bring together faculty teaching economics, social sciences and tourism, students, researchers and policy makers to discuss economics and tourism issues. CECON invites theoretical and empirical papers on all aspects of economics and tourism.

Abstract Submission: **August 15, 2015**
 Abstract Acceptance Notification: **August 31, 2015**
 Full Paper Submission Deadline: **September 30, 2015**

All the papers presented in the conference will have the opportunities of publishing their paper in the official conference proceedings and to be recommended to publish in journals by CECON.

All papers must be submitted in a standardized format. Papers not adhering to this format will be returned to the authors for formatting. Below are the paper requirements:

Abstract

- Inclusion of a 150-150 word abstract
- Saved in Microsoft file format
- Mail 12 point font
- Inclusion of paper title with all authors, affliations and contact details
- Graphics and tables must be accessible by Microsoft Word
- Should be written in English, typed in double spacing with wide margins.

Full Research papers should include the following headings or sections:

- Abstract and keywords
- Introduction
- Methods
- Results and Discussions
- Conclusions and Implications
- References
- The length of full paper should be between 6,000 to 8,000 words.

All abstracts and papers must be submitted electronically to Dr. Ruben Nayve, Jr. at the email address: nayvej@yahoo.com

For further information, please contact Dr. Ruben Nayve, Jr. by E-mail address: nayvej@yahoo.com or Dr. Teresa P. Fabiania @ tesfab2004@yahoo.com

CALL FOR PAPERS

Journal of Indonesian Applied Economics
 P-ISSN: 1907-7947; E-ISSN: 2541-5395
 Vol 7 No. 1 and No 2, 2017

Journal of Indonesian Applied Economics (JAE) is a peer-review journal published by Department of Economics at the Faculty of Economics and Business, Brawijaya University focusing on several fields in application of economics theory and all matters relating to Indonesian economy. The journal is published twice a year issued on February and August.

Some issues or topics of applied economics include, but are not limited to the following: industrial economics, monetary economics, labour economics, agricultural economics, development economics, public economics, international economics, regional economics, and environmental economics.

JAE is inviting papers for Vol 7 No. 1 and No 2, 2017, which is scheduled to be published on February and August 2017

The editor receives manuscripts that have not been published previously or be under consideration for publication elsewhere. The instructions for contributors or authors are presented in our website jae.uib.ac.id

www.jae.uib.ac.id

CALL FOR PAPERS

The 1st International Conference and 19th National Conference on Economics of Education and Tourism

 "Economics of Education and Tourism: Towards a Global and Local Collaborations"

 Grand Men Seng Hotel,

 Davao City, Philippines

 November 19 - 21, 2015

The Council of Economics Educators (CEECON) is pleased to announce its 1st International Conference and 19th National Conference on 19-21 November 2015 in Davao City, Philippines. This event is expected to bring together faculty teaching economics, social sciences and tourism, students, researchers and policy makers to discuss economics and tourism issues. CEECON invites theoretical and empirical papers on all aspects of economics and tourism.

Abstract Submission: **August 15, 2015**

 Abstract Acceptance Notification: **August 21, 2015**

 Full Paper Submission Deadline: **September 30, 2015**

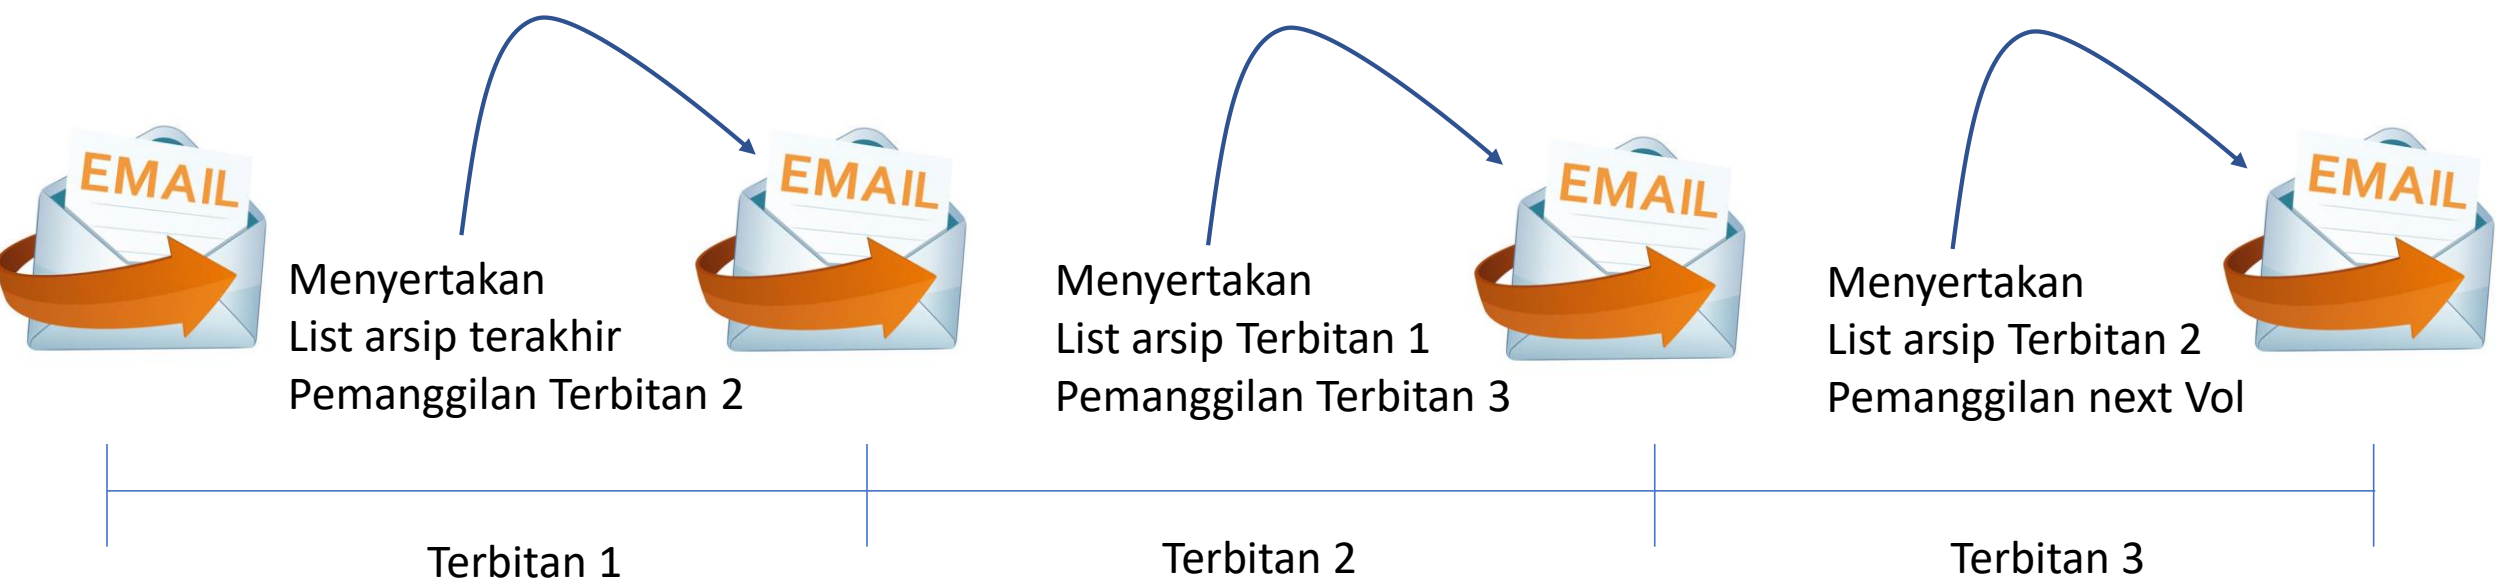

All the papers presented in the conference will have the opportunities of publishing their paper in the official conference proceedings and to be recommended to publish in journals by CEECON.

All papers must be submitted in a standardized format. Papers not adhering to this format will be returned to the authors for formatting. Below are the paper requirements:

Abstract <ul style="list-style-type: none"> Inclusion of a 100-150 word abstract Send in Microsoft Word format Use A4 paper size Abstract and cover page must be accessible by Microsoft Word 2003 Should be written in English, typed in double spacing with wide margins. 	Full Research papers should include the following heading or sections: <ul style="list-style-type: none"> Abstract and keywords Introduction Methodology Results and Discussions References and Bibliographies Conclusion The length of full paper should be between 4,000 to 8,000 words.
---	--

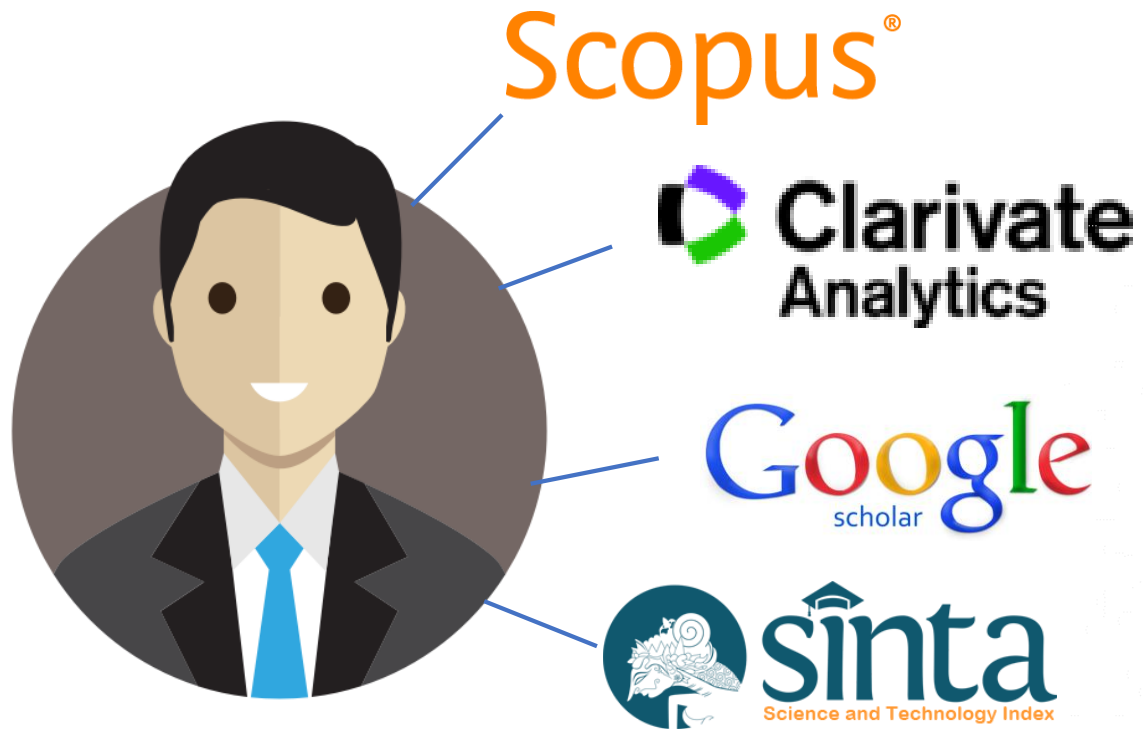

All abstracts and papers must be submitted electronically to Dr. Ruben Nayve, Jr. at the email address: nayvej@yahoo.com

For further information, please contact Dr. Ruben Nayve, Jr. by E-mail address: nayvej@yahoo.com or Dr. Teresa R. Fabiania at tesfab2004@yahoo.com

(2) Editor / Dewan Penyunting

- Problem / Isu :
 - Editor Standing : Lebih dari 50% penyunting sudah pernah menulis artikel di jurnal ilmiah internasional / nasional
 - Bagaimana mencari, mengajak dan menyakinkan orang-orang ini ?
 - Bagaimana agar Editor memiliki kelayakan “standing” yang mapan?
 - Apakah kita (EiC dan ME) sudah ada rekam jejak yang baik ?
 - Apakah Editor mengerjakan segalanya ? Review sampai editing layout
 - Bagaimana membagi tugas ?

> Editors memiliki cakrawala pandang yang memadai & terus mengikuti perkembangan jurnal2 internas / Nasional, untuk pengembangan jurnal yang dikelola

1. Editor harus secara kontinue **menulis & mempublikasi** artikel
2. Editor Mau belajar melihat peta **perjurnalan di Indonesia dan dunia**
3. Editors harus mempunyai **panutan jurnal bereputasi** Internasional
4. Editor mau terus belajar **secara mandiri / team work**
5. Editor seharusnya **memahami databases publikasi** internasional
6. Editor **menjalin relasi** dengan **banyak experts** di LN

- Pimpinan Redaksi / Editor in chief / Managing Editor harus melihat kelayakan manuscript secara umum dan teknis
 - Apakah sudah sesuai dengan ruang-lingkup jurnal ?
 - Apakah kualitas sudah sesuai kriteria minimum ?
 - Apakah sudah mengikuti gaya selingkung jurnal ?
 - Menilai isi manuscript secara lebih rinci tentang kelayakannya sebelum diberikan ke mitra bebestari
 - Menerawang kekuatan naskah apakah bisa menambah sitasi atau sebaliknya

req Recommendation

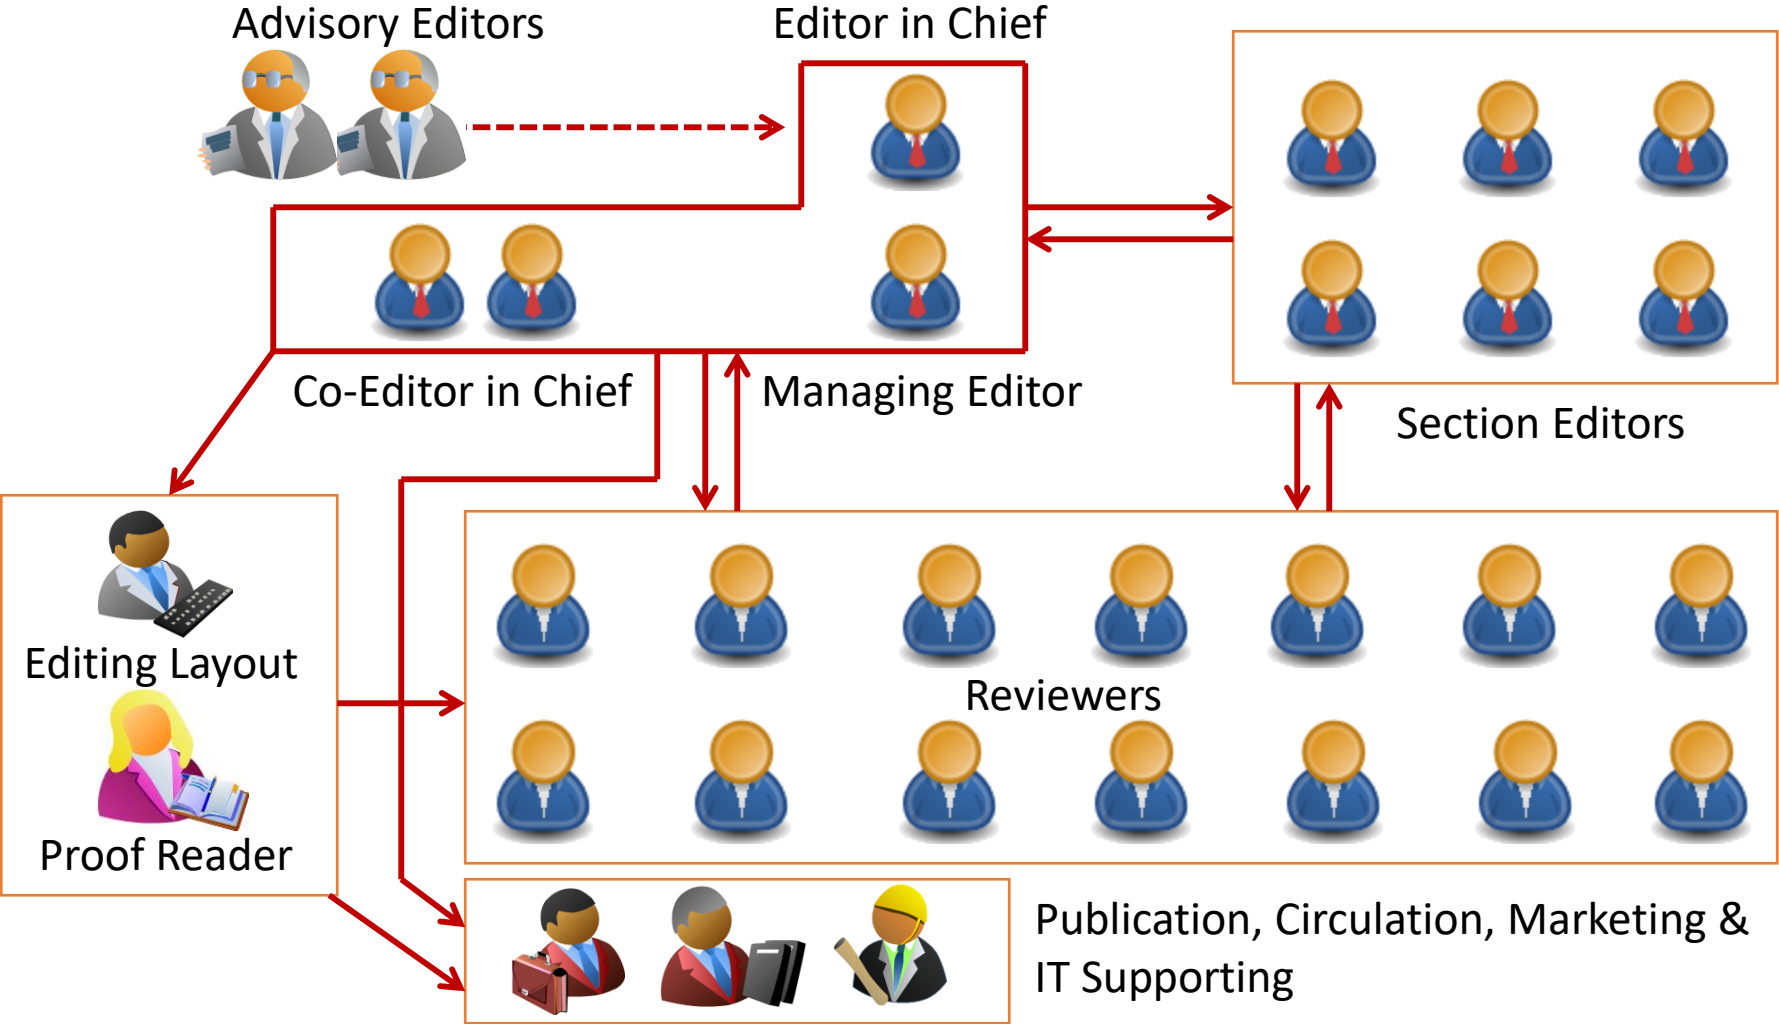

- Accept No Revisions
- Accept Revisions with final approval: by Editor
- Accept Revisions with final approval: by this reviewer
- Reject: Encourage major revision and resubmission
- Reject: No further consideration
- Another Journal

(3) Reviewer / Mitra Bebestari

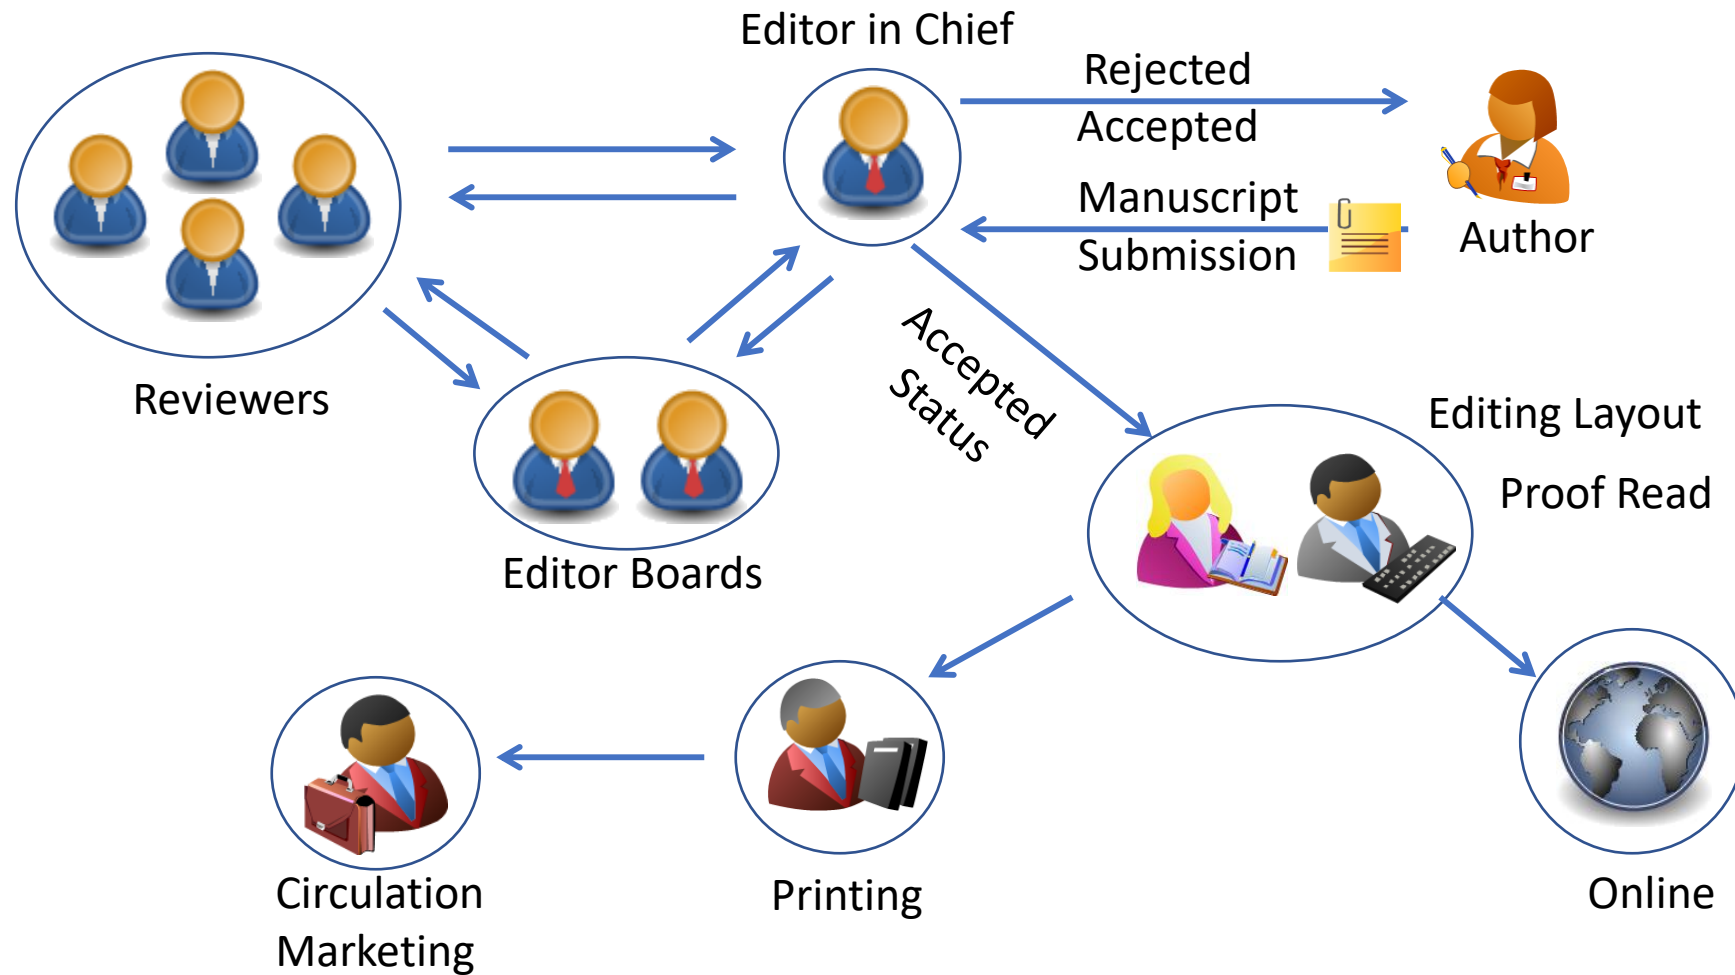

- Problem / Isu :
 - Membuat form review (pelajari dari jurnal contoh)
 - Item-item form isian akan disiapkan secara comprehensive atau alakadarnya ?
 - Meliputi : Tata Bahasa, Judul, Abstrak, Metode, Hasil & Kesimpulan
 - Bagaimana mencari mitra bebestari ?
 - Melibatkan mitra bebestari berkaliber internasional / Nasional >50% secara luas ?
 - Bagaimana jika hanya melibatkan mitra bebestari lokal ?
 - Berapa jumlah ideal dalam mereview satu naskah ?
 - Bagaimana caranya agar mitra bebestari memeriksa tepat waktu ?
 - Apakah perlu memberikan intensive kepada Mitra Bebestari ?

- Mitra bebestari menilai, membahas, mengkritik, mengomentari, memberi masukan untuk perbaikan, dan memberikan keputusan layak diterbitkan atau tidak.
- Mitra bebestari ketat dalam menjaring naskah, memberikan saran dan catatan secara substantive sehingga kespesialisasi naskah berkala terjaga
- Atau minimal memberikan catatan, masukan dan data perbaikan secukupnya

Teamwork

Publication Process

(4) Naskah

- Problem / Isu :
 - Berapa lama proses review sampai notification ?
 - Setelah proses notifikasi, selanjutnya... apa lagi ?
 - Apakah Copyright penulis diserahkan pada saat submit atau di final naskah ?
 - Kapankah pengecekan similarity di lakukan, pada awal manuscript / di akhir ?
 - Kapan proses editing layout untuk menyesuaikan halaman?
 - DOI & Crossreff deposit (jika ada)
 - XML Export
 - Bagaimana proses withdrawal, retraction, removal, replacement?
(<https://www.elsevier.com/about/policies/article-withdrawal>)

Type of Article

- Review Article
- Case Report
- Letter to the Editor
- Editorial
- Short Communication
- Original Article
- Mini Review

> Review Article

- Artikel Kajian (Review Article) adalah karya ilmiah yang merangkum perkembangan (terakhir) topik, isu, teori, metodologi tertentu suatu masalah dari berbagai aspek secara komprehensif, dan terbitkan dalam jurnal ilmiah.
- Bisa di-invite oleh Editor in Chief atau Associate
- Author juga bisa secara active menawarkan artikelnya.
- Bisa disubmit ke journal yang khusus review atau journal umum
- Keuntungan review: tingkat sitasinya tinggi.

Review article Abstract only

Abstract

Hypoglycemia is an essential issue for diabetic patients and considered a limiting factor in the glycemic management. Heterogeneity of the diseases in Type 2 Diabetes Mellitus cardiovascular diseases. There are several factors that lead to hypoglycemia including sulfonylurea therapy, insulin therapy, delaying or missing a meal, physical exercise, or alcohol consumption. During Ramadan fasting, diabetic patients have high incidence of hypoglycemia. Therefore, focused education about hypoglycemia in routine life of complications. © 2018 Diabetes India

Cecal duplication: A mimicker of intussusception: A case report and review (Article) (Open Access)

Radhakrishna, V.^a , Rijhwani, A.^b, Jadhav, B.^c 

^aDepartment of Paediatric Surgery, Manipal Hospital, Bengaluru, India

^bDepartment of Paediatric Surgery, JIPMER, Pondicherry, India

^cDepartment of Paediatric Surgery, KEM Hospital, Mumbai, India

Abstract

Introduction: Cecal duplication is a rare congenital anomaly and to the best of our knowledge, only 43 cases have been reported in the literature till date. Most of the lead to high morbidity. **Case report:** A five-year boy presented with pain abdomen for a week. He was found to have ileocolic intussusception. The intussusceptic mass was found in the cecum with multiple enlarged lymph nodes. Mass was resected with clear margins and lymph nodes sampled. Histopathology was conclusive of ce three-year follow-up. **Conclusion:** Incomplete reduction of intussusception, intussusception with atypical presentation or intussusception in atypical age group shoul

Introduction

No one can deny that we are now facing a process of digital transformation transition to digitalization in nearly all the services of our globalized economy. How can this phenomenon be understood from an organizational perspective? The transition to digitalization is not only about switching from paper to the electronic environment, but it also affects the governance of the entire organizational ecosystem. This means that all processes of the value chain should be integrated with IT.

Industry 4.0 denotes the *Fourth Industrial Revolution*, a term introduced in 2011 at the Hannover Messe, one of the world's largest trade shows, and since then widely used by German industry and government, [2], [4]. Thus, the industrialization stages are:

- Industry 1.0: 1780 - 1870 Steam power.
- Industry 2.0: 1870 - 1950 Chain production, electrical power.
- Industry 3.0: 1950 - 2010 Higher level of automation, digitalization and IT.
- Industry 4.0: 2010 - today Cyber-physical Systems, smart industry, Internet of Things, Big Data, hyperconnectivity.

Business Process Management (BPM) is a systematic approach to identify, map, document, design, implement, measure and control business processes. BPM embraces the increasing IT support to improve, innovate, and manage processes thoroughly, determining business results and creating customer value, achieving thus the business goals with greater flexibility [1].

I Guess That's Why They Call it The Blues

Each year, January brings many expected happenings and issues; most of which I regard with much disdain. In addition to the post-Christmas blues, the miserable weather, the fast-abandoned new year's resolutions, and the frantic and often misplaced desire to start afresh, it also encourages predictions.

Many feel the need to devise a forecast for what the year ahead will bring. The media are certainly guilty of this – *Infosecurity* is no exception. This issue, we asked our editorial board to review the past two years and make some predictions of their own. The result is a colorful and sometimes controversial collection of thoughts belonging to the industry's finest. Turn to page 34 to indulge yourselves.

In an entirely unpredictable twist, I am not going to talk about WikiLeaks. We've crammed enough analysis and references to this 'data leak circus' into the rest of the magazine, so I don't want to turn your fix into an overdose, aside from saying that you should keep your eyes peeled on www.infosecurity-magazine.com for all of the latest news updates on the saga.

What I would like to do, is share with you a list of what I don't think will happen this year:

1. People won't stop talking about the cloud. It may seem like we've been obsessing over cloud computing for too long now, and perhaps we have, but that's not about to change any time soon.
2. Cybercrime is not going to slow down – if anything, quite the contrary. While cybercriminals are still making money and facing minimal risk of being caught or punished, they're not going to quit.
3. People won't stop over-sharing. Facebook and Twitter, once declared 'a fad', have a much longer life expectancy according to more recent general consensus. Even increased awareness around data and ID theft won't discourage the younger generation from sharing all. (Generation Y/Noughties aren't the only offenders. In fact, @Lord_Sugar fills my Twitter feed with impressive frequency).
4. Tablet computers won't be the 'be all and end all'...Yet. Yes, the iPad is very 'cool' – as

are similar models on the market, and their popularity will grow at a significant rate, but not enough to seriously compete with laptops and PCs in 2011. Nevertheless, the plethora of tablet computers will pose some interesting challenges for enterprises.

5. Finally, and please believe that I make this last 'reverse prediction' with my fingers crossed, I don't think we will be at Cyber World War in the next twelve months.

I think this fifth one needs further explanation. It's important I stress that I'm not dismissing the concept of cyberwar.

For those of you who read my last editorial, you'll know that I truly consider cyberwar very real, extremely destructive, and the war of the future.

However, what I'm hopeful and fairly confident about is that an international cyberwar on the scale that is portrayed in television dramas – (Jack Bauer fans, you know what I mean); the type that cripples a nation's critical national infrastructure, that causes planes to crash by (cyber) terrorists hacking the air traffic control system, or murdering citizens via the release of nuclear chemicals by infiltrating and controlling the nuclear plant's network, for example – is unlikely.

That's not to say we'll never be witness to this most destructive and catastrophic kind of cyberwar, because it is sadly realistic that we will. We can only hope that those with the power to do something about it use 2011 – and beyond – to batten down the hatches, so that if and when the nation is faced with this kind of war, we'll be ready and waiting.

I hope you enjoy your new spotlight section of the magazine. Your feedback, as always, is welcome.

Take care,
 Eleanor Dallaway, Editor

We will not stop over-sharing. Facebook and Twitter, once declared 'a fad', have a much longer life expectancy according to more recent consensus

*From so simple a beginning
endless forms
most beautiful and most wonderful
have been, and are being, evolved*

—Darwin

*The Machine does not isolate man from the great problems of Nature
But plunges him more deeply into them*

—Antoine de Saint-Exupéry

This book is about cognitive architectures; i.e., it is about life-forms endowed with particular corporeal identities, giving shape and meaningfulness to the environment in which they are embedded, creating a dynamic world to which they are irresistibly bound, in an essential dialectical relationship. A world where they evolve, making their best effort to thrive, and in so doing, end up defining individual and collective existential narratives. This book is also about embodied and non-embodied artificial intelligent systems, human constructs, meant to be able to populate the human world, capable of identifying different life contexts and behaving according to human values and conventions, systems capable of performing tasks in a human-like way. Finally, this book is about trying to grasp the essence of cognition, here understood as the effective action that enables a cognitive entity to continue its existence in a definite environment as it brings forth its world [3]. By creating artificial environments where non-embodied artificial entities evolve, human beings are ultimately looking for “those features of the world where the details do not matter, where large equivalence classes of structure, action and so on lead to a deep sameness of being” [4, p. 7].

In Chapter “[Cognitive Architectures: The Dialectics of Agent/Environment](#),” Ferreira sets the motto for the book. By positing that cognition is the embodied, embedded, and always situated process whereby life-forms bound to their respective environments in an essential dialectical relationship strive to live and replicate within the existential spatiotemporal framework defined by their own corporeal dynamics, the author addresses the fundamental role played by different physical architectures, different corporeal realities in the shaping of meaningful worlds. Addressing the complexity and richness of human cognition in which that essential

interaction is symbolically mediated, Ferreira points out that every newborn comes into life in a particular physical, economic, social, cultural, and linguistic atmosphere—a semiosphere. An environment where specific relations of production have not only determined particular social structures and social hierarchies, but also determined the typical patterns of behavior to be followed in each circumstance and context, the definition of public and domestic space [2], the creation of institutions, the architectural options, the production of artefacts and technological artefacts, and the production of art forms.

The chapter concludes by identifying the hybrid forms of cognition present in human reality nowadays, hybrid forms that result from the interaction of hybrid agents and the existence of hybrid worlds.

Chapter “[Complementarity of Seeing and Appearing](#)” addresses the phenomenon of coloring among species, its place in the individual’s Umwelt, and the functions it plays in distinct contexts and environmental settings. Using the example of coloration of animal surfaces to show how processes based on interactions of the individual parts lead to the emergence of “meaning at the level of communication between individuals,” Jindřich Brejcha, Pavel Pecháček, and Karel Kleisner argue that, due to complementarity of appearance and perception, the exposed surfaces of organisms ultimately become semi-autonomous entities subjected to their own evolution. In the final part of this chapter, the authors investigate various explanations of the evolution of coloration in the context of its role in animal behavior and communication and within particular environmental settings.

In Chapter “[The Extended Domicile—Culture, Embodied Existence and the Senses](#),” Juhanni Pallasmaa states that the human sensory and neural system, as well as the brain, is the result of evolutionary adaptation to the prevailing environments and conditions of life during the continuum of human evolutionary history. The nature of our senses and neural functions, as well as instinctive environmental preferences, needs to be viewed within a bio-cultural and bio-historical perspective, instead of regarding them as ahistorical, unchanging, or given properties of the *Homo Sapiens*. Through our human structures, both physical and mental, we turn limitless, shapeless, and meaningless “natural” space into lived cultural space with specific human purposes and meanings. Lived reality fuses observation, memory, and fantasy, as well as the cerebral and the embodied, into single existential experience.

Chapter “[What We Need from an Embodied Cognitive Architecture](#)” provides a succinct overview and discussion of the two main perspectives involved around the concept of embodied cognition, proposing a clarification of two fundamental issues: (i) the meaning of the term and (ii) whether the existence of a physical body is, in fact, paramount in the process of cognition and, if this is a fact, the role the physical body plays in the process.

According to Serge Thill, resolving these unclear aspects remains the major challenge in current theories of embodied cognition. At this stage, the main point is, according to the author, arriving at a unifying definition that will at least have to acknowledge a role for the physical body. In his opinion, what an embodied cognitive architecture needs to provide at the current state of theoretical

> Short Communication

- Mempunyai originalitas yang tinggi
- Suatu artikel apakah masuk di full length article atau short communication, tergantung pada keputusan Editor.
- Ada beberapa jurnal yang di awal memang menyediakan pilihan short communication.
- Aturan yang umum: artikel secara data belum memenuhi jadi full article, akan tetapi novelty sangat tinggi.

Short communication ○ Abstract only

Short communication: Multi-scale topographic anisotropy patterns on a Barrier Island

Geomorphology, Volume 297, 15 November 2017, Pages 153-158

Short communication: Multi-scale topographic anisotropy patterns on a Barrier Island

Chris Houser ^{a,*}, Michael Bishop ^b, Phil Wernette ^c

^a Department of Earth and Environmental Sciences, University of Windsor, Windsor, Ontario, Canada

^b Department of Geography, Texas A&M University, College Station, TX 77843-3147, United States

^c Center for Geospatial Science, Applications and Technology, Texas A&M University, College Station, TX 77843-3147, United States

> Original Research Article

- Full-length original research articles follow a standard format that is the prototype for scientific writing and typically include:
 - Introduction,
 - Methods,
 - Results, and
 - Discussion
- Although length may vary, original articles should contribute substantive new information with a clear major focus.

- Original research article adalah artikel yang berasal dari suatu hasil penelitian.
- Bentuk artikel yang paling banyak ditemui
- Cara penyiapannya relative lebih mudah dibandingkan dengan review article.
- Penulis aktif mengirimkan naskahnya ke jurnal yang dituju.
- Perlu penekanan terkait dengan **novelty** atau **inovasi riset**

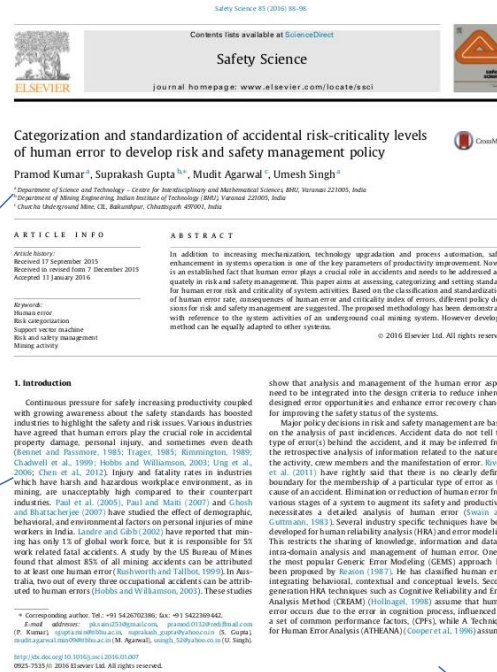

Memuat artikel yang berisi karya orisinal dan mempunyai kebaruan/memberikan kontribusi ilmiah

> Pencantuman Nama penulis lengkap terutama nama depan dan belakang

> Nama & Alamat instansi lengkap (konsisten)

Kata Kunci : 3 – 5 frase yg spesifik Mempengaruhi indexing

Sistematika Penulisan Artikel

Keefektifan Judul Artikel :

> Artikel yg ditulis dalam bahasa Indonesia, judul utamanya juga menggunakan bahasa indonesia

> Judul bahasa inggris dapat disematkan di kalimat pertama abstrak

Abstrak : Singkat dan jelas (150-250 kata)

Latar belakang singkat, tujuan dan ruang lingkup penelitian, pendekatan atau metode yang digunakan, hasil-hasil penting (*finding*), dan simpulan

Sistem pengacuan pustaka dan Pengutipan

Pemanfaatan Instrumen Pendukung :

Ilustrasi dapat berupa tabel atau gambar

Apakah sudah dirujuk semuanya dalam paragraph

Beberapa Kesalahan

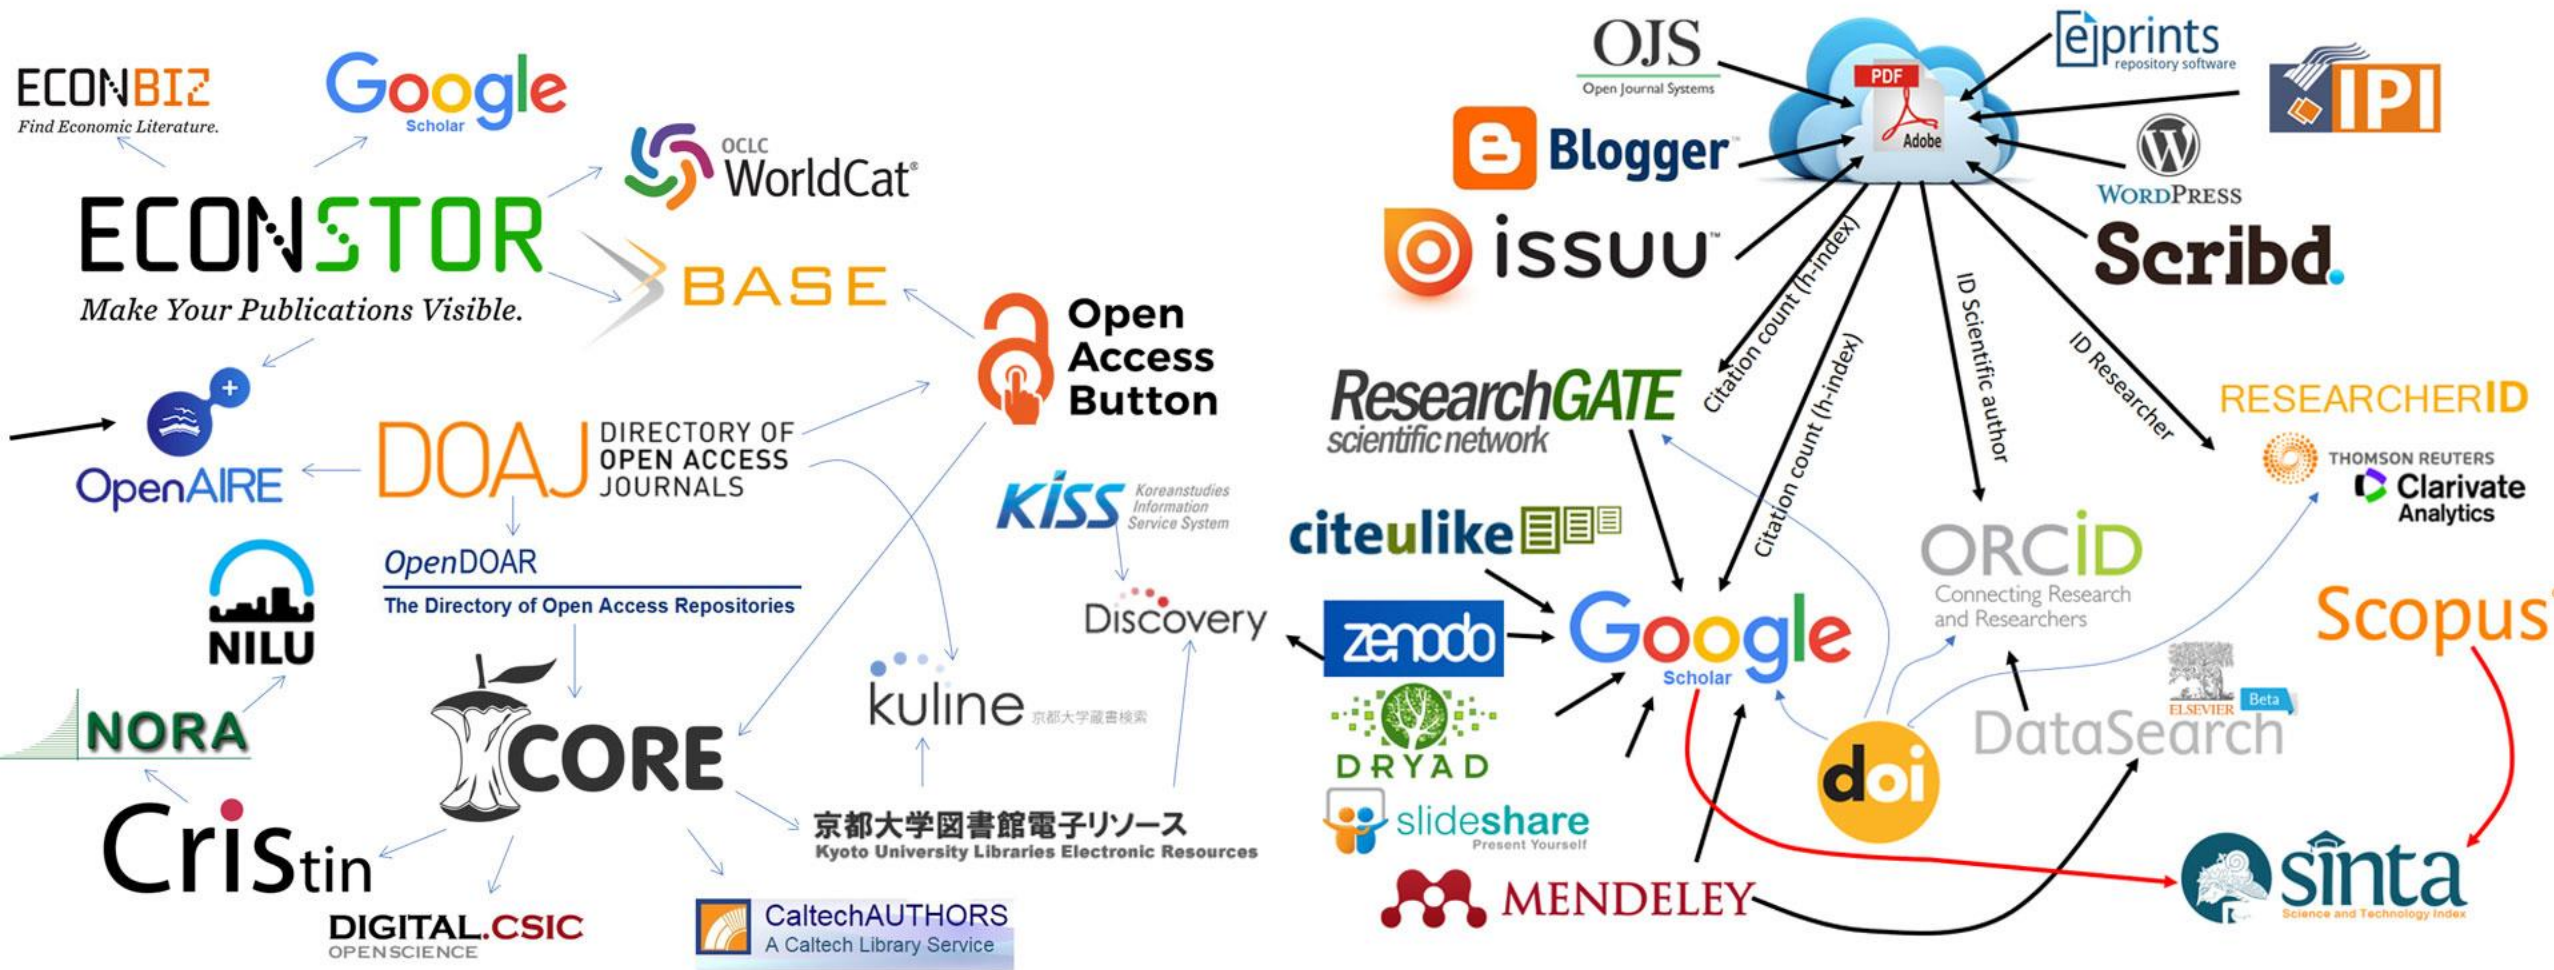

- Judul terlalu Panjang, kurang memuat **kata-kata spesifik** dan **penemuan** riset yang dilakukan
- Nama penulis menggunakan gelar akademik
- Informasi kontak & affiliation tidak jelas, tidak menyatakan **corresponding** author
- Penulis tunggal dan ghost authors
- Abstrak terlalu Panjang / terlalu pendek
- Keyword tidak mencerminkan content naskah
- Pengulangan kalimat/ Pernyataan yg sudah muncul sebelumnya di bagian related work atau pendahuluan
- Penulisan acuan pustaka salah/ tidak lengkap dan tidak konsisten
- Tidak menggunakan Sumber primer & mutakhir : jurnal, prosiding, thesis, disertasi, paten
- Berlebih dalam *self citation* (<20%)

(5) Desiminasi & Sitasi

- Strategi (perspective author)
 - Membuat & penyajian di naskah ilmiah :
 - **Literature Review**
 - **Memberikan free dataset / kumpulan data**
 - Naskah ilmiah dengan hasil negatif / error results
 - Pendekatan dengan Cross multidisiplin
 - Target publikasi di journal:
 - Multi reader dari berbagai keilmuan
 - Hindari fake/ predator journal
 - Open access Journal
 - Perhatikan Hits traffic visitors
 - Terindex (agregator) : abstracting / indexing bereputasi

Strategi

2. Karya ilmiah yang diterbitkan pada jurnal dan prosiding hasil seminar yang diusulkan untuk kenaikan jabatan fungsional/pangkat dosen harus dapat ditelusuri secara online. Karya ilmiah yang diterbitkan pada jurnal sebelum tanggal 30 Desember 2011 wajib diunggah di *repository* perguruan tinggi dan yang diterbitkan sesudah tanggal 30 Desember 2011 harus dimuat dalam laman jurnal. Sedangkan bagi prosiding hasil seminar hanya dalam bentuk hardcopy/CD yang diterbitkan sampai dengan 30 Desember 2015 wajib diunggah di *repository* perguruan tinggi dan yang diterbitkan sesudah tanggal tersebut wajib dimuat pada laman penyelenggara seminar/konferensi atau pada laman penyedia elektronik prosiding.

Abstract:

In December 2013, during a Zika virus (ZIKV) outbreak in French Polynesia, a patient in Tahiti sought treatment for hematospermia, and ZIKV was isolated from his semen. ZIKV transmission by sexual intercourse has been previously suspected. This observation supports the possibility that ZIKV could be transmitted sexually.
